Pit and Quarry Index—Vol. 53

All major articles published in Pit and Quarry during the 12-month period beginning with July, 1960, and ending with June, 1961, are here indexed under appropriate subject headings. Plant stories, general articles, and reports of association meetings are in most instances listed under the materials or products principally involved. Articles concerning particular phases of operations are listed under such headings as blasting, drilling, maintenance, et cetera.
